

HM 19H4

Honda 5.5 HP

With a powerful Honda 4-cycle engine matched to the largest impeller in the business, this mower is built to hover light and deliver big performance. It hovers with ease on lake banks and slopes. It cuts and mulches tall, wet grass for a clean professional look. The new 4-cycle engine is light and specially designed for continuous incline operation. It runs quiet and clean. It is CARB and EPA certified.
